**DETAILED ACTION**

***Response to Amendment***

The examiner acknowledges the applicant's submission of the amendment dated 1/29/2009. At this point, claims 14, 17, 19, and 21 have been amended, claims 16, 23, and 25-30 have been canceled, and claims 31-39 have been added. Thus, claims 14, 15, 17-22, 24 and 31-39 are pending in the instant application.

***Allowable Subject Matter***

Claims 14-15, 17-22, 24, 31-39 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 14-15, 18 and 24, the prior art alone or in combination does not teach the limitation of a coin-shaped storage cell comprising a top lid which is integrally caulked with the metal case via the ring packing wherein the metal case includes an inner bottom surface formed with asperities, wherein the asperities are in the form of a plurality of concentric circular rings, the asperities being formed by making the center of the circular rings and the center of the inner bottom surface of the metal case in agreement with each other.

With respect to claims 17 and 31-33, the prior art alone or in combination does not teach the limitation of a coin-shaped storage cell comprising a top lid which is integrally caulked with the metal case via the ring packing, wherein the metal case includes an inner bottom surface formed with asperities and wherein the asperities are formed only on an area of the inner bottom surface of the metal case where the metal case opposes the ring packing.

With respect to claims 19-20, and 34-36, the prior art alone or in combination does not teach the limitation of a coin-shaped storage cell comprising a top lid which is integrally caulked with the metal case via the ring packing, and a sealing auxiliary member which is interposed between the metal case and the ring packing, wherein the metal case includes an inner bottom surface formed with asperities.

With respect to claims 21-22, and 37-39, the prior art alone or in combination does not teach the limitation of a coin-shaped storage cell comprising a top lid which is integrally caulked with metal case via the ring packing, and a first annular bulging portion which is integrally formed with an outer periphery of the metal case, the first annular bulging portion protruding toward the ring packing, wherein the metal case includes an inner bottom surface formed with asperities.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
